[Description](#) [Specification](#) [Resources](#)

Inside the box, you'll find felt carpeting on all sides and on the bottom, which gives the box a high-end look and helps protect your gear. It's also mold and mildew resistant and the floor section is removable for easy cleanup.

For nearly three decades, American Aluminum has built boxes for the Military, the FBI, and law enforcement agencies and now we've made the CamLocker available to you, so you can outfit your truck with the best American-made tool box on the market. If you're looking for the most secure way to store your gear, look no further. Unlike most tool boxes on the market that use a low-grade metal paddle locks, the CamLocker system uses revolving cams that hook through welded catches to secure the box in the closed position. Breaking in without a key would actually require the lid to be broken or the use of power tools! CamLocker tool boxes are constructed from .063 gauge polished Aluminum for strength and rigidity, so when you leave your truck you can feel confident that your tools, firearms, or gear will still be there when you get back.

- 3 Year Structural Warranty
- Comes with removable, sliding tool tray
- Completely carpeted throughout sides and floor
- Floor carpeting is removable for easy cleaning
- Also available are side mount boxes, emergency vehicle boxes, UTV boxes, trailer boxes, dog boxes, and more
- CamLock locking mechanism keeps tools locked securely
- Key-lockable chrome-plated hefty carbon steel T-Handles
- Heavy Duty .063 gauge polished Aluminum welded construction
- Full-length continuous Stainless Steel hinges
- Insulated lids outperform all others
- Weather-sealed lids
