REQUEST TO SURPLUS ITEM

The Ashland Police Department is requesting to surplus a bullet proof vest, purchased using grant funds and city funds, that has recently expired. The vest was issued on 2/11/2020, and had a use life of 5 years. It is no longer of any use to the city and would like to offer it to an officer that it would fit at a reasonable price of \$100. The vest bears the serial number 2002118691 and was cut specifically for an officer that no longer works here. The person that purchases the vest does so with the understanding it is sold as is with no warranty, or guarantee of service.
